

Home Learning Van Gogh Summer A 2019-

What's at the bottom of the deep, blue sea?

Home Learning will continue to be in Learning Logs and these will be sent out on a Wednesday, and will be due in on a Monday. You only need to complete one task each week! Please continue to read daily with your child and encourage them to write in their diary.

Mathematics: Nrich: Here are two dice. If

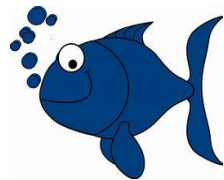

you add up the dots on the top you'll get 7. Find two dice to roll yourself. Roll the dice and then

add the numbers that are on the top. What other totals could you get if you roll the dice again?

Expressive Arts and Design: Imagine you were shipwrecked. Where would you end up? Draw and write about your destination. It could be a map of a place or a journey, or a picture of your final destination.

Understanding the World: Can you find out about some creatures that live at the bottom of the sea?

English: Turn your family into pirates. Draw pictures of your family dressed as pirates and give them pirate names. You could also write a short description of what sort of pirate they would be.
