

Home Learning Van Gogh Year 1

Spring A 2020- Where in the world is Antarctica?

Home Learning will continue to be in Learning Logs and these will be sent out on a Wednesday, and will be due in on a Monday. You only need to complete one task each week! If you don't have access to the internet or a computer at home, there will be an opportunity for the children to use the computers in school over the week.

Mathematics: Use the Mathletics website to complete a task and date this in the home learning book. The login is in your reading diary www.mathletics.co.uk

Science: The South Pole is covered with ice and snow. Can you make an ice cube and watch how it melts? What is it like to hold? Does it smell of anything? How long did it take to melt? Can you record all the things you find out about the ice?

Geography: We will be looking at where we find water in our world? How many seas and oceans can you list?

English: The penguin and the boy in the story of 'Lost and Found' are great friends. They have lots of adventures on their way back from the South Pole. Think of an adventure they have and retell it to someone at home.

Design and Technology: Can you create something which represents our school vision or which represents one of our values? This could be in the form of a 3D model, a poster, photographs, a poem or prayer. This task needs to be completed and sent into school by Friday 17th January. More details are in the letter sent home by Mrs Matthews.

Design and Technology: In the story 'Lost and Found', the penguin uses an umbrella to try and row his way back to the boy. What would you use as a boat? Can you make a boat that floats?
