

Monet Home Learning Grid

'What Lies Beneath?'

Summer A 2019

Learning Intention: To find out facts about a sea creature

Choose your favourite sea creature and find out some interesting facts about it. You can use books, the internet or even TV. Write these facts into your home learning book, you could include some diagrams with labels too.

Learning Intention: SPAG.com task

Visit spag.com and login - you will find your individual login inside the back cover of your reading diary. You have been assigned two grammar activities to complete.

Year 1/2 Expectation

Each week the children will be expected to:

- Complete the spellings home learning task (yr.2).
- Read every day (at least 15mins)
- Complete one home learning task (to the same standard of work produced in school).
- Practise and learn number bonds to 10/20 and rapid recall of the 2, 5 and 10 times tables.

Please write the learning intention and date at the top of the page so that I can see which task you have completed.

Parents' role:

Please could you:

- Sign the home learning each week on completion.
- Let us know if they struggled with any of the tasks.
- Indicate if they spent the time on the task but couldn't complete it.
- Let us know if there is a genuine reason why the home learning was not completed.
- Support and encourage, but avoid 'doing' the learning for them!

Access to the internet: the children can use the laptops at school any break time if they are having problems gaining access to the internet at home.

Learning Intention: To develop fluency with number facts.

Can you learn all the numbers that add together to make 20? Write them into your home learning book. Do you notice any patterns?

If you find this easy you could try finding number pairs that add up to make 100.

Learning Intention: Mathematics Task

Revisit the games and tests from either 'addition and subtraction' or 'problem solving'.

Please write in your book the DATE and LI so I can check your scores online.
