

## Home Learning Van Gogh Spring B 2018/19 How does your garden grow?

Home Learning will continue to be in Learning Logs and these will be sent out on a Wednesday, and will be due in on a Monday. Only one task is needed a week.

**Literacy:** Find some information about a plant or tree. It could be something that grows in your garden or something from a very different habitat!

**EAD:** We will explore the colour blue in class. How many different blues can you find? Can you make a blue montage?

**Understanding the World:** Draw a map of your garden or an outside space near your house. What grows there? Can you label the different parts of the area or the plants that grow there?

**Literacy:** We have loved learning about the Bog Baby. Can you design or make your own creature that may live in a Magic Wood? What colour would it be? Would it be wobbly like jelly? Tell me about it.

**Mathematics:** Nrich: Magic Plant.  
On Friday at 9am the plant was 2cm tall. Every day it doubled in height. How tall was it by 9am on Monday?  
Draw pictures to help you work it out.
