## 'Fire and Ice' Autumn 2 2018

**Learning Intention:** to find out about the Great Fire of London.

Find some interesting facts about the Great Fire of London. You could choose a research question to focus on, for example, how did the fire start? Or you could just find some general facts. Write the facts into your homework book. You could draw pictures too if you like.

**Learning Intention:** to design and make a fire safety poster.

Your task is to design a fire safety poster for fireworks night. Try to make your poster informative and eye catching.

**Learning Intention:** to design and make a piece of landscape art.

Make a piece of art showing an icy or snowy landscape. You could use paint, pencil, pastels, collage materials, whatever you like! Feel free to get creative.

### Year 1/2 Expectation

Each week the children will be expected to:

- Complete the spellings homework task (yr.2).
- Read every night (at least 15mins)
- Complete one homework task (to the same standard of work produced in school).
- Practise and learn numbers bonds to 10/20 and the 2s, 5s and 10s times tables.

Please write the learning intention and date at the top of the page so that I can see which task you have completed.

### Parents' role:

Please could you:

- Sign the homework each week on completion.
- Let us know if they struggled with any of the tasks.
- Indicate if they spent the time on the task but couldn't complete it.
- Let us know if there is a genuine reason why the homework was not completed.
- Support and encourage, but avoid 'doing' the homework for them!

Access to the internet: the children can use the laptops at school any break time if they are having problems gaining access to the internet at home.

**Learning Intention:** Mathematics Task

Your task is to complete **at least 3** of the games and the **test** from:

'Properties of Shape and Position'

Please write in your book the DATE and LI so I can check your scores online.

**Learning Intention:** Mathematics Task

Your task is to complete **at least 3** of the games and the **test** from:

'Comparing Numbers'

Please write in your book the DATE and LI so I can check your scores online.

**Learning Intention:** to add and subtract money.

Can you practise adding and subtracting different coins together to make larger amounts e.g.  $10p + 5p = 15p$  and use these to pay for real items at the shop? Record what you bought and what coins you used in your book.
